## **Finmeccanica presents its first Sustainability Report**

---

Finmeccanica presented its Sustainability Report 2010 today in Rome, at the *Museo dell'Ara Pacis*. The event has been attended by Cardinal Gianfranco Ravasi, President of the Pontifical Council for Culture of the Holy See, Corrado Clini, Director General at the Ministry of the Environment, Land and Sea, Pier Francesco Guarguaglini, Chairman of Finmeccanica, Giuseppe Orsi, CEO of Finmeccanica and Alessandro Pansa, COO and CFO of Finmeccanica.

The excellent results achieved in 2010 as part of the sustainability process initiated by Finmeccanica are testified by the inclusion of the Finmeccanica stock in the World and Europe components of the prestigious Dow Jones Sustainability Index as a Gold Class Member and Sector Mover.

After publishing three annual Sustainability Reports, Finmeccanica is now presenting its first Sustainability Review, the format and contents of which correspond to an internationally recognised standard. Full compliance with this standard has been verified by the independent auditor PricewaterhouseCoopers, which confirmed the "B+" GRI application level declared by Finmeccanica.

A digital version of the Sustainability Report is available in the Sustainability section at [www.finmeccanica.com](http://www.finmeccanica.com).
