The seminars will showcase technologies and products that demonstrate Finmeccanica's strengths and innovative solutions designed to meet tomorrow's challenges. Some of our excellences, from helicopters to electronic warfare, from earth observation and satellite services to cyber defence and smart solutions, will be presented along with the celebration of the story of the first 100 years of Alenia Aermacchi, and with a focus on the new Finmeccanica approach to ethics and compliance.

**Italian/English
simultaneous translation available.**
