

Kuala Lumpur, 14th April 2014

Selex ES to strengthen its footprint in Malaysia

Selex ES, a Finmeccanica company, is attending DSA 2014 in Kuala Lumpur, Malaysia, from the 14th to 17th April (Hall 4 - Stand 4060). As one of the largest defence and security electronics companies in the world, Selex ES is able to meet complex customer requirements in Malaysia and the wider region and provide a complete range of solutions across the defence and security domains.

Selex ES has developed its presence in Malaysia over two decades, working with local partners and delivering projects in the civil and military sectors. These include a number of air traffic control systems for Malaysia's Civil Aviation organisation (DCA), air defence radars, electronic warfare equipment and operational support for the Royal Malaysian Air Force and naval systems for the Royal Malaysian Navy.

To help support Malaysia's aspirations to develop advanced sovereign capabilities, at DSA Selex ES will highlight its solutions in the areas of air traffic management, baggage handling, secure communication and security, the Integrated Airport solution to deliver improved efficiency and enhance the passenger experience, coastal mobile surveillance solutions which can operate autonomously or be integrated within larger coastal/border management and harbour protection systems, and mission systems, situational awareness and ISTAR products and sensors to increase land vehicle based operational capability.

In Kuala Lumpur the company will also have on show its multifunctional KRONOS naval radar based on AESA (Active Electronically Scanned Array) technology. KRONOS can perform surveillance, tracking, threat evaluation and fire control against multiple threats simultaneously and automatically. Other products on exhibition include the JANUS-N multi sensor naval surveillance suite which is field-proven and offers high performance for maritime patrol and the Horizon HD infrared cameras, specifically designed for long-range surveillance and target acquisition.

As a major part of the Eurofighter Typhoon programme, Selex ES will also support the aircraft's campaign activity at the show.
