EY S.p.A.
(for the period 2021 - 2029)

***********

* The Board of Directors that previously held office and the term of which expired at the Shareholders’ Meeting held on 19 May 2021, was composed as follows: Luca Rossi (Chairman), Sara Fornasiero, Leonardo Quagliata, Francesco Perrini, Daniela Savi (Regular Statutory Auditors), Giuseppe Cerati and Marina Monassi (Alternate Statutory Auditors).

a. Member of the Control and Risks Committee
b. Member of the Remuneration Committee
c. Member of the Nomination and Governance Committee
d. Member of the Sustainability and Innovation Committee
The results recorded in the first half of 2021 confirm the forecasts of recovery in growth and an increase in profitability reported in the Financial Statements at 31 December 2020, showing a marked improvement in the Group’s industrial performance; in the first half of 2020 this indicator was in fact affected by the outbreak of the COVID-19 pandemic, which then gradually stabilised over the subsequent months, including as a result of the measures put in place in order to ensure that the business could continue in full operation. The volume of new orders is at excellent levels, confirming the good competitive positioning of the Group’s products and solutions, with revenues growing in all the main business areas and a Book to Bill higher than 1.

The difficulties that have been reported in the civil sector in recent months have been confirmed in a scenario that is still characterised by the pandemic: in particular, the Aerostructures Division was affected by the fall in volumes and the consequent failure of the industrial assets to operate at full capacity, which led to a further decline in results compared to the first half of 2020.

The cash flows, although affected by the usual interim performance characterised by significant outflows in the first part of the year, are clearly improving.

Please refer to the paragraph “Non-GAAP performance indicators” for definitions.

The primary changes that marked the Group’s performance compared to the previous year are described below. A more thorough analysis can be found in the section covering the trends in each business segment.
Below is an initial breakdown of the performances of the Aeronautics Divisions which are described in the specific section on the performances by sector:

**Revenue**

<td>(24.4) p.p.</td>
</tr>
</tbody>
</table>

**Commercial performance**

**New orders** came to €bil. 6.7, sharply increasing compared to the first six months of 2020.

The Defence Electronics and Security sector in the European component and the Aircraft division of the Aeronautics sector recorded an excellent performance in terms of sales. The Helicopters business segment showed a downturn, which was affected during the period under comparison by the acquisition of the IMOS order, while in the Aeronautics sector the decline in the civil component continues.

The book to bill ratio (the ratio of new Orders for the period to Revenues) is slightly higher than 1. The order backlog ensures a coverage in terms of equivalent production equal to more than 2.5 years.
Business performance.

Revenues (€bil. 6.3) showed during the first half of 2021 a significant increase, driven by the performance of the Defence Electronics and Security and Helicopters sectors, which was only partially offset by the expected reduction in volumes in the Aerostructures segment, which continued to be adversely affected by a decline in production rates on the B787 and ATR programmes.

EBITA, equal to €mil. 400 (ROS of 6.3%), recorded a significant total growth rate (37%) with a considerable increase in all business segments, except for Aerostructures, which was due to higher volumes of revenues and the improvement in profitability and which was also contributed to by a higher share provided by all the strategic Joint Ventures, with particular reference to the manufacturing sector of the Space Alliance.

EBIT, equal to €mil. 347 showed, compared to the first half of 2020 (€mil. 227), a substantial increase (53%) while continuing to record – albeit to a lesser extent – charges linked to the compliance with the Government’s instructions in the matter of COVID-19, including to protect the health of its workers.

The Net result before extraordinary transactions (€mil. 177), equal to the Net Result, benefitted from the EBIT performance, as well as from lower financial costs which, in the period under comparison, were strongly affected by the component related to the hedging activity to counter foreign exchange risk. The Net Result was also influenced by the tax benefits deriving from the adoption of the tax concessions provided for by Article 110 of Law Decree 104/2020 on the realignment between the tax and statutory values of goodwill.

Notes to the reconciliation between the reclassified cash flow statement and the statutory cash flow statement:

(*) Includes “Cash flows from operating activities”, excluding debt payments pursuant to Law 808/1985;

(**) Includes “Cash flows generated from (used in) investing activities”, including debt payments pursuant to Law 808/1985 and excluding dividends collected;

(*** Includes “Other investing activities” classified as “Strategic transactions”;

(****) Includes “Other investing activities”, excluding dividends collected and the transactions classified as “Strategic transactions”.

FOCF in the first half was negative for €mil. 1,380, improving significantly compared to the figure of 30 June 2020 (negative for €mil. 1,889). This result, although confirming the usual interim trend that is characterised by significant cash absorptions in the first part of the year, reflects the expected positive trend towards improvement.

The Group Net Debt, equal to €mil. 4,613, showed an increase compared to 31 December 2020 (€mil. 3,318), mainly as a result of the abovementioned FOCF performance.

Changes in the Group Net Debt are shown below:

As detailed in the section on “Financial transactions”, to which reference should be made, “Bonds” showed a decrease as a result of the repayment of the remaining nominal amount of €mil. 739 of the bond issued, which had reached its natural expiry in January 2021.

As at 30 June 2021 Leonardo had credit facilities available for a total of about €mil. 3,699, to meet the financing needs of the Group’s recurring operations, broken down as follows: two Revolving Credit Facilities, the first taken out in 2018 for an amount of €mil. 1,800 and the second one contracted in May 2020 amounting to €mil. 1,250, both unused at that date, and additional unconfirmed short-term lines of credit of about €mil. 649, used for €mil. 88 at 30 June 2021. Furthermore, the subsidiary Leonardo US Holding has short-term revocable lines of credit in dollars, guaranteed by Leonardo Spa, for a total counter-value of €mil. 236, which were entirely unused at 30 June 2021. Finally, Leonardo has unconfirmed unsecured bank lines of credit for a total of €mil. 10,666, an amount of €mil. 3,885 of which was available at 30 June 2021.

1. Helicopters

The performance in the first half of 2021 showed, compared to the first half of 2020, a good level of new orders and an increase in Revenues and EBITA, even in a context still characterized by the pandemic.

New orders. They showed a decrease due to the acquisition of the IMOS contract during the first half of 2020, partially offset by higher orders in the Commercial sphere. Among the new orders gained in the half-year note:

- the second contract for the supply of 36 TH-73A (AW119) helicopters for the US Navy;
- the second addendum to the contract for the completion of the development activities and the supply of no. 4 production helicopters relating to the NEES (New Exploration and Escort Helicopter - Nuovo Elicottero da Esplorazione e Scorta) programme for the Italian Army;
- the contracts concerning the supply of no. 9 AW139 helicopters for the Saudi Royal Court.

Revenues. They were on the rise compared to the first half of 2020 following the ramp-up of operations on the military and governmental programmes such as NH90 for Qatar and TH-73A per for the US Navy, in addition to higher revenues on AW189/AW149 and AW169 lines.

EBITA. It showed an increase mainly as a result of an improved manufacturing efficiency, which was adversely affected by the outbreak of the COVID-19 pandemic during the first half of 2020, while the effect of higher volumes is offset by a different mix of activities, with a consequent slight decline in ROS.
2. Defense Electronics & Security

The first half of 2021 was characterised by an excellent business performance, with revenues and profits on the rise in all the areas of operation in Europe and at Leonardo DRS, thus confirming the upward trend in profitability started in the first quarter.

Average €/USD exchange rate: 1.2057 (first six months of 2021) and 1.1014 (first six months of 2020)

**New Orders.** They showed a significant increase compared to the first half of 2020. Among the major orders that characterised the excellent business performance of Electronics in Europe note the contract for the supply of equipment for two U212 Near Future Submarines (NFS), which will join the Italian Navy’s fleet as from 2027 and, within the broadest programme Quadriga, the contract for the supply of radars of air protection systems that will equip 38 Typhoon aircraft intended to replace the Tranche 1 aircraft, which are currently used by the German Ministry of Defence. Furthermore, note, in the area of Cyber security, the contract for the Phase 4 of the SI COTE (Territory Control System - Sistema di Controllo del Territorio) programme focused on innovative solutions designed to support the institutional operations of the Carabinieri Corps Command and of the Defence General Staff.

As regards DRS note the additional orders for the production of hardware modular systems named Mounted Family of Computer Systems (MFoCS) to be installed on land combat vehicles for manoeuvrability and logistics support for the US Army and the IM-SHORAD (Initial-Manoeuvre-Short Range Air Defense) contract for the initial supply of a Mission Equipment Package, which is to be integrated into heavy striker-type vehicles and will enable the neutralization of low-altitude aerial threats, including remotely piloted vehicles (drones).

**Revenues.** These showed an increase compared to the first half of 2020 both in the European component of the business, which last year was affected by the application of the measures to contain COVID-19 infection, and at Leonardo DRS, despite a negative impact of the USD/Euro exchange rate.

**EBITA.** It showed an increase as a result of higher volumes and an improved profitability compared to the value posted in the first half of 2020 which had been adversely affected by the first effects of the measures put in place to contain the COVID-19 infection, with particular regard to the European
component. Leonardo DRS, whose result considerably increased despite the negative effect of the USD/Euro exchange rate, confirms the upward trend in profitability already highlighted in the first quarter.

### 3. Aeronautics

The first half of 2021 showed a good performance of the Aircraft Division and a performance in the civil aviation sector that was still heavily impacted by the effects of the pandemic, with production volumes showing a significant decline in the Aerostructures Division and still low delivery levels, although recovering compared to 2020, on the part of the GIE-ATR consortium.

From a production point of view:

- For military programmes of the Aircraft Division there was the delivery of 22 wings to Lockheed Martin for the F-35 programme (18 wings delivered in June 2020);
- For the Aerostructures Division 24 deliveries were made for fuselage sections and 17 stabilisers for the B787 programme (62 fuselages and 40 stabilisers delivered in 2020), and 7 fuselages for the ATR programme (16 in the first half of the last year).

Below is the breakdown of Key Performance Indicators for the sector:

</tbody>
</table>

**New Orders:** they showed an increase compared to the first half of 2020 as a result of important acquisitions of the Aircraft Division which more than offset the expected decline in the civil component and in particular:
• the Aircraft Division recorded orders that were higher than in the same period of 2020 thanks to the finalisation of a major contract for the export of M-346 aircraft;
• the Aerostructures Division was affected by lower requests on the part of all the main customers, specifically on the part of the GIE consortium for the ATR programme, the customers Boeing (especially the B787 programme) and Airbus (A220 and A321).

Revenues. These were in line with the same period of 2020, with the increase recorded in the Aircraft Division which offset the decline in the Aerostructures Division. Note in particular:
• higher production volumes achieved in the Aircraft Division, specifically on the line of M-346 trainers;
• a decline in the Aerostructures Division, which was affected by a reduction in the production rates of the B787 and ATR programmes.

EBITA. It showed a decline compared to the first half of 2020 due to the result of the Aerostructures Division. Specifically:
• The effect of higher volumes and an improved manufacturing efficiency compared to the first half of 2020 led to a considerable increase in profitability in the Aircraft Division;
• the expected reduction in business volumes and the consequent failure to run production sites at their full capacity led to a sharp decline in results compared to the first half of 2020 in the Aerostructures Division;
• the GIE-ATR consortium recorded results higher than those reported in 2020 thanks to the actions taken to reduce costs and the increase in deliveries (6 deliveries in 2021 compared to only one delivery in 2020).

4. Space
The first half of 2021 showed an increase in the result compared to the same period of the previous year as a result of higher production volumes and improved profitability in the manufacturing segment, the performance of which in the first six months of 2020 had been also affected by the first effects of the COVID-19 emergency.

The segment of satellite services confirmed a good performance as in the previous year and recorded results that were substantially in line with the corresponding period of 2020.

In addition to the good industrial performance, the half-year result was influenced by the significant economic benefit registered by the Italian component of the manufacturing business segment deriving from the effects of the realignment between the tax and statutory value of goodwill, in compliance with the tax concessions provided for by the Decree “Urgent measures to support and revive the economy”.
Guidance 2021

In consideration of the results achieved in the first half of 2021 and of the expectations for the quarters to follow, and on the basis of an expected improvement in the global health situation with consequent gradual normalization of operating and market conditions, we confirm 2021 Guidance disclosed in March 2021, summarized below:

INDUSTRIAL AND FINANCIAL TRANSACTIONS

Industrial transactions:

- **Acquisition of GEM Elettronica.** On 27 January Leonardo signed a contract with GEM Investment S.r.l. and two minority quotas holders in order to acquire 30% of GEM Elettronica S.r.l. (“GEM”) for a consideration of €mil. 5. The company operates in the field of short- and medium-range sensors, navigation radar and coastal surveillance, which are a business that is highly complementary to the Group's products. Under a call / put option scheme, Leonardo will also be entitled to become the majority shareholder (from 65% to 100%) within 3 to 6 years. The closing of the transaction took place on 14 April 2021;

- **Acquisition of DPI S.r.l..** In February, Leonardo acquired a quota of 63% in DPI, a company specialising in the design, production and sale of personal and environmental protective equipment, through its subsidiary Larimart. As a result of this transaction, Leonardo’s operations have been strengthened in the sector of technologies for personal protection and key infrastructure, thus reinforcing its footprint in the development of products and solutions for the security, emergency and Defence markets. In April 2021, Larimart acquired an additional quota of 15% and paid a total amount of €mil. 6;

- **Cooperation agreement with CAE.** On 29 March 2021 Leonardo and CAE established a company named “Leonardo CAE Advanced Jet Training”, in order to provide support services to the operations of the International Flight Training School (IFTS), ranging from technical and logistics support to M-346 aircraft and Ground-Based Training Systems to the operation of IFTS infrastructures;

- **Acquisition of Hensoldt AG.** On 24 April 2021 Leonardo entered into an agreement with Square Lux Holding II S.à r.l., a company controlled by funds advised by Kohlberg Kravis & Roberts & Co. L.P., to purchase a 25.1% stake in HENSOLDT AG. The company is the leading German player in the field of sensor solutions for defence and security applications, as confirmed by the recent important contracts acquired (e.g. EFA, Pegasus), and it already had a consolidated collaboration relationship with Leonardo in significant programmes such as EFA, MALE, IFF. The completion of the transaction is subject to the usual approvals by the relevant authorities and is expected in the second half of 2021. It will entail an outlay of about €mil. 606 or €23 per share;

- **Acquisition of Alea.** On 8 June 2021 Leonardo signed a preliminary agreement for the acquisition of 70% of the share capital of Alea, a company specializing in mission critical communication software for multimedia solutions compliant with international standards on LTE/5G broadband networks. Leonardo, thanks to this transaction, strengthens its offering portfolio in professional communications, in order to guarantee new features and advanced performances in support of emergency management, public safety, companies, critical infrastructures and transports.

On 24 March 2021 Leonardo US Holding, Inc. postponed the initial public offering (“IPO”) of a minority shareholding of Leonardo DRS, since, notwithstanding investor interest within the price range during the course of the roadshow, adverse market conditions did not allow an adequate valuation of the company. DRS remains a core part of Leonardo’s business portfolio and the IPO will potentially be revisited when market conditions are more favourable and a successful IPO at an appropriate valuation for this strategic business can be achieved.
Financial transactions. No new transaction was carried out on the financial markets during the first half of 2021. However, in January 2021 Leonardo proceeded with:

- The use of an amount of € mil. 200 of the loan taken out with the European Investment Bank (EIB) in December 2020, aimed at supporting certain investment projects envisaged in the Group’s Industrial Plan;
- The early cancellation, requested at the end of December 2020, concerning the remaining amount of about €mil. 250 of the Term Loan taken out in May 2020 with a pool of international banks due to the COVID-19 emergency;
- The repayment of the remaining amount (€mil. 739) of the bond issue launched for an initial amount of €mil. 950 in January 2015, which had reached its natural expiry.

Moreover, in June the EMTN (Euro Medium Term Note) programme was renewed for further 12 months, which regulates possible bond issues on the European market for a maximum nominal value of €bil. 4. At the date of this report, the Programme is used for a total of €bil. 2.2.

Leonardo is the issuer of all the bonds in Euro placed on the market within the mentioned EMTN programme, and also acts as a guarantor for the bond issues launched by Leonardo US Holding Inc. in the US market. The Group’s issues are governed by regulations laying down standard legal clauses for this type of transactions carried out by corporate entities in institutional markets, which do not require any commitment with respect to specific financial covenants, while they include, among others, negative pledge and cross default clauses. According to negative pledge clauses, the Group’s issuers, Leonardo and their Material Subsidiaries (i.e. entities in which Leonardo holds more than 50% of the capital and whose gross revenues and total assets account for at least 10% of consolidated gross revenues and total assets) are specifically prohibited from creating collaterals or any other encumbrance as security for their debt comprised of bonds or financial instruments that are either listed or capable of being listed, unless these guarantees are extended to all the bondholders. This prohibition shall not apply to securitisation transactions and to any set of assets intended for specific businesses pursuant to Articles 2447-bis and ff. of the Italian Civil Code. On the contrary, cross default clauses grant the bondholders the right to request early repayment of bonds in their possession upon the occurrence of an event of default on the part of the Group’s issuers and/or Leonardo and/or any of their Material Subsidiaries, the result of which would be their failure to make payments above the established limits.

Financial covenants are also included in the Revolving Credit Facility line of credit for a total of €mil. 1,800, which provide for compliance by Leonardo with two financial ratios (a Group Net Debt, excluding payables to the joint ventures MBDA and Thales Alenia Space and lease liabilities/EBITDA including amortisation of the rights of use of not more than 3.75 and an EBITDA including amortisation of the rights of use/Net interest ratio of not less than 3.25), which are tested on an annual basis on year-end consolidated data and which had been complied with in full at 31 December 2020. These covenants are also included in the loan agreement with CDP for €mil. 100 and in the term-loan of €mil. 500, furthermore, in accordance with contract provisions providing for this option, these covenants were also extended to all the EIB loans in place (used for a total amount of €mil. 583 as at 30 June 2021), and to some loans granted by US banks in favour of Leonardo DRS in previous years.
Outstanding bond issues are given a medium/long-term financial credit rating by the international rating agencies: Moody’s Investors Service (Moody’s), Standard & Poor’s and Fitch. At the date of presentation of this report, Leonardo’s credit ratings, compared to those preceding the last change, were as follows:

<table>
<thead>
<tr>
<th>Agency</th>
<th>Last update</th>
<th>Previous Credit Rating</th>
<th>Previous Outlook</th>
<th>Updated Credit Rating</th>
<th>Updated Outlook</th>
</tr>
</thead>
<tbody>
<tr>
<td>Moody’s</td>

<td>BB+</td>
<td>stable</td>
</tr>
<tr>
<td>Fitch</td>
<td>May 2020</td>
<td>BBB-</td>
<td>stable</td>
<td>BBB-</td>
<td>negative</td>
</tr>
</tbody>
</table>

With regard to the impact of positive or negative changes in Leonardo’s credit ratings, there are no default clauses linked to the credit ratings. The only possible effects deriving from further changes, if any, to the credit ratings refer to higher or lower finance costs on certain payables of the Group, especially with reference to the Revolving Credit Facility and to the Term Loan as provided for in the related agreements. Finally, for the sake of completeness, it should be noted that the Funding Agreement between MBDA and its shareholders provides, inter alia, that any downgrade of the rating assigned to the shareholders will result in a gradual increase in interest rates. Additionally, under a pre-set rating limit (for at least two out of three rating agencies: BB- from Standards & Poor’s, BB- from Fitch and Ba3 from Moody’s) MBDA is entitled to determine the applicable margin each time. Finally, the agreement provides for rating limits the achievement of which allows MBDA to request the issue of a bank guarantee from its shareholders.

**Information pursuant to Articles 70 and 71 of the Consob Issuers’ Regulation**

By resolution of the Board of Directors on 23 January 2013, the Company adopted the simplification regime under Articles 70/8 and 71/1-bis of the Issuers’ Regulations, adopted with CONSOB Resolution 11971/1999, as subsequently amended and supplemented. By this resolution, the Company chose the option to make exceptions to the obligation to issue the documents required by the law when transactions of greater importance (such as mergers, spin-offs, capital increases by means of the contribution of assets in kind, acquisitions or disposals) occur.

**Main Risks for the remaining months of the financial years**

The main risks to which the Group is exposed in the following six months of the financial year are unchanged from those described in fuller detail in the Integrated Annual Report at 31 December 2020 in the section “Risk management”.

Any updates related to specific risk positions are described in Note 17 to the condensed consolidated half-year financial statements as of 30 June 2021.
**RELATED PARTIES TRANSACTIONS**

It should be noted that in 2010 Leonardo adopted a specific “Procedure for Related Parties Transactions” (hereinafter referred to as the “Procedure”), which was recently updated on 17 June 2021, effective from 1 July 2021, pursuant to CONSOB Regulation no. 17221 of 12 March 2010, as amended and supplemented, containing provisions on “related parties transactions” (hereinafter referred to as the “Regulation”), as well as in implementation of Article 2391-bis of the Italian Civil Code. The abovementioned Procedure is available on the Company’s website (www.leonardocompany.com, under Corporate Governance section, “Related Parties” area).

Pursuant to Article 5.8 of the Regulation, it should be noted that no transactions of greater importance (as defined by Article 4.1.a) and identified by the abovementioned Procedure pursuant to Annex 3 attached to the Regulation were carried out during the first half of 2021, nor were other related-party transactions, which would affect, in a significant manner, the consolidated financial position or the Leonardo Group’s results for the reporting period. Finally, it should be noted that no changes or developments took place in relation to the related parties transactions described in the 2020 Report on Operations.

**"NON-GAAP" PERFORMANCE INDICATORS**

Leonardo Management assesses the Group’s performance and that of its business segments based on a number of indicators that are not envisaged by the IFRSs. Specifically, EBITA is used as the primary indicator of profitability, since it allows us to analyse the Group’s marginality by eliminating the impact of the volatility associated with non-recurring/extraordinary items or items unrelated to ordinary operations.

As required by Consob Communication 0092543 of 3 December 2015 implementing the ESMA guidelines 2015/1415 on alternative performance indicators, below is a description of the components of each of these indicators:

- **New orders**: this includes sales contracts signed with customers in the period, which provide for the counterparties' obligation to comply therewith.
- **Order backlog**: this figure is the sum of the order backlog for the preceding period and new orders, less revenues during the reference period.
- **EBITDA**: this is given by EBITA, as defined below, before amortisation and depreciation (excluding amortisation of intangible assets arising from business combinations) and impairment losses (net of those relating to goodwill or classified among “non-recurring costs”).
- **EBITA**: it is arrived at by eliminating from EBIT, as defined below, the following items:
  - any impairment in goodwill;
  - amortisation and impairment, if any, of the portion of the purchase price allocated to intangible assets as part of business combinations, as required by IFRS 3;
  - restructuring costs that are a part of defined and significant plans. This item includes personnel costs as well as any and all other costs deriving from the reorganisation (e.g. impairment of assets, costs for the closure of sites, relocation costs, etc.);
  - other non-recurring costs or income, i.e. connected to particularly significant and extraordinary events that are not related to the ordinary performance of the business. This item includes costs incurred in M&A transactions, as well as costs connected with businesses and/or products and systems held for disposal, and the recognition of losses on contracts that have become onerous as a result of events that are not connected with operations.
EBITA is then used to calculate return on sales (ROS) and return on investment (ROI).

A reconciliation of Income before tax and financial expense, EBIT and EBITA is shown below:

<table>
<thead>
<tr>
<th>(€ millions)</th>
<th>For the 6 months ended 30 June</th>
</tr>
</thead>
<tbody>
<tr>
<td>Income before tax and financial expenses</td>
<td></td>
</tr>
<tr>
<td>Equation accounted strategic JVs</td>
<td>251</td>
</tr>
<tr>
<td>EBIT</td>
<td>227</td>
</tr>
<tr>
<td>Amortisation of intangible assets acquired as part of business combinations</td>
<td>14</td>
</tr>
<tr>
<td>Restructuring costs</td>
<td>6</td>
</tr>
<tr>
<td>Non-recurring (income) expense</td>
<td>45</td>
</tr>
<tr>
<td>EBITA</td>
<td>292</td>
</tr>
</tbody>
</table>

Non-recurring charges for the period mainly relate to costs incurred to comply with the Government’s instructions in the matter of COVID-19 in order to provide support to the Governmental authorities in managing the emergency.

- **Return on Sales (ROS):** this is calculated as the ratio of EBITA to revenue.

- **EBIT:** this is obtained by adding to the net result before income taxes and financial expenses (defined as earnings before “financial income and expense”, “share of profits (losses) of equity-accounted investees”, “income taxes” and “result from discontinued operations”) the Group’s share of profit in the results of its strategic Joint Ventures (ATR, MBDA, Thales Alenia Space and Telespazio), reported in the “share of profits (losses) of equity-accounted investees”.

- **Net result before extraordinary transactions:** this is the Net Result before the result from discontinued operations and the effects of the extraordinary transactions (acquisitions and disposals).

- **Group Net Debt:** this includes cash, financial receivables and current securities, net of (current and non-current) loans and borrowings and of the fair value of derivatives covering financial debt items, as well as the main non-current receivables.

- **Free Operating Cash-Flow (FOCF):** this is the sum of the cash flows generated by (used in) operating activities (excluding the changes in the Group Net Debt), the cash flows generated by (used in) ordinary investing activities (investment and divestment of intangible assets, property, plant and equipment, and equity investments, net of cash flows from the purchase or sale of equity investments that, due to their nature or significance, are considered “strategic investments”) and dividends. The calculation of FOCF is presented in the reclassified cash flow statement shown in the section “Group results and financial position”.

- **Return on Investments (ROI):** this is calculated as the ratio of EBITA to the average net capital invested in the two comparative periods.

- **Workforce:** the number of employees recorded in the register on the last day of the period.

Below are the statements of reconciliation of the items in the reclassified statements provided in the Report on Operations and the Income Statement, the statement of financial positions and the statement of Cash Flow:
**Half-year financial report at 30 June 2021**

EXPLANATORY NOTES

1. GENERAL INFORMATION

Leonardo S.p.A. is a company limited by shares based in Rome (Italy), at Piazza Monte Grappa 4, and is listed on the Italian Stock Exchange (FTSE MIB). The Group is a major Italian high technology organization operating in the Helicopters, Defence Electronics & Security, Aeronautics and Space sectors.

2. FORM, CONTENT AND APPLICABLE ACCOUNTING STANDARDS

The half-year financial report of the Group at 30 June 2021 was prepared in accordance with Article 154-ter, paragraph 2 of Legislative Decree 58/98 (Consolidated Law on Financial Intermediation), as subsequently amended and supplemented. The condensed consolidated half-year financial statements at 30 June 2021, included in the half-year financial report, were prepared in accordance with IAS 34 “Interim Financial Reporting” issued by the International Accounting Standards Board (IASB) and comprise the condensed consolidated separate income statement, consolidated statement of comprehensive income, condensed consolidated statement of financial position, consolidated statement of cash flows, consolidated statement of changes in equity and the related explanatory notes.

In accordance with IAS 34, these notes are presented in condensed form and do not include all disclosures required for annual financial statements, as they refer only to those items that are essential to understand the Group’s financial position, results of operations and cash flows given their amount, breakdown or changes therein. This half-year financial report should, therefore, be read in conjunction with the 2020 annual consolidated financial statements. The statement of financial position and income statement are likewise presented in a condensed format compared to the annual financial statements. The related explanatory notes include a reconciliation with year-end schedules for items aggregated in condensed schedules.

This half-year financial report has been prepared by using the same accounting policies, recognition and measurement criteria, as well as consolidation methods as used to prepare the consolidated financial statements at 31 December 2020 and the half-year financial report at 30 June 2020.

It is pointed out that the Group adopts a six-month period as the interim reporting period for the purposes of IAS 34 and for the definition of interim financial statements therein reported.

The exchange rates for the major currencies used in preparing this half-year financial report are shown below:

<table>

The Leonardo Group’s condensed consolidated half-year financial statements at 30 June 2021 were approved by the Board of Directors’ meeting held on 29 July 2021 and were published on the same date.

Amounts are shown in millions of euros unless stated otherwise.
These condensed consolidated half-year financial statements have been subjected to a review on the part of EY S.p.A..

3. **SIGNIFICANT ISSUES AND SIGNIFICANT ESTIMATES MADE BY MANAGEMENT**

Significant issues and significant estimates made by management

There are no changes in the reporting of particularly significant issues that require critical estimates by management compared to what is described in Note 4 to the 2020 consolidated financial statements, to which reference should be made.

4. **BUSINESS SEASONALITY**

Cash flows relating to operations

The Group’s key business segments usually feature a high concentration of cash receipts from customers in the last few months of the year. This has an impact, which was particularly marked during the period as a result of the world economy scenario, on interim cash flows and the variability of the Group’s debt over the various interim periods, which improve substantially in the last few months of the calendar year.

5. **EFFECTS OF CHANGES IN ACCOUNTING POLICIES ADOPTED**

During the period there were no significant changes in the accounting standards applied by the Group.

6. **SIGNIFICANT EVENTS OCCURRED AFTER THE PERIOD-END**

As described in the 2020 Integrated Annual Report, to which reference should be made, taking into account the mid-term impacts of the pandemic on the civil sector and the changed perspectives of the commercial aviation market, Leonardo implemented the envisaged actions to mitigate the effects on the industrial performance of the Aerostructures Division. In this context, on 21 July 2021 trade union agreements were signed to make operational the instruments identified for the early retirement of employees on a voluntary basis. Such agreements will involve up to a maximum of 500 employees who will meet the criteria for early retirement in the three-year period 2021-2023, with a preliminarily estimated maximum cost of up to €mil. 125.

7. **SEGMENT REPORTING**

The Divisions and the companies through which the Group operates are combined together, for the purposes of the internal and external reporting, into the relevant four business sectors: *Helicopters, Defence Electronics and Security, Aeronautics and Space*. The *Other activities* segment includes the corporate activities and the residual ones.

The Group assesses the performance of its operating segments and the allocation of financial resources on the basis of revenue and EBITA, an operational indicator that is obtained by deducting, from the result before tax and financial costs, the following items: *i*) goodwill impairment, *ii*) amortisation and impairment of the amount of the purchase price allocated to intangible assets within the business combinations, *iii*) restructuring costs and *iv*) other non-recurring income or costs attributable to particularly significant and exceptional events not attributable to the normal
Half-year financial report at 30 June 2021

operations of the relevant businesses. The indicator also includes the Group’s portion of the results of the strategic Joint Ventures (ATR, MBDA, Thales Alenia Space and Telespazio).

For the purpose of a correct interpretation of the information provided we note that the results of the equity-accounted strategic Joint Ventures have been included within the EBITA of the sectors to which these JVs belong; however, these sectors do not reflect the relevant share of Revenues.

The results for each sector at 30 June 2021, as compared with those of the same period of the previous year are as follows:

</tr>
</tbody>
</table>

Goodwill increased due to the differences deriving from the conversion of the foreign currency assets, mainly referable to amounts in GBP and USD.

The impairment tests carried out at 31 December 2020 showed significant positive margins (headroom) for all the Cash Generating Units (CGUs) to which the Group's goodwill is allocated. The largely positive margins were also confirmed by the sensitivity analyses carried out on the main assumptions underlying the tests. Considering the foregoing and the performance of the CGUs, as at 30 June 2021 there were no impairment indicators that could require a revision of these tests.

It should be noted that with reference to development costs and non-recurring charges no impairment indicator emerged compared to the valuations conducted during the preparation of the 2020 Financial Statements.

Commitments are in place for the purchase of intangible assets for €mil. 16 (€mil. 14 as at 31 December 2020).
9. **PROPERTY, PLANT AND EQUIPMENT AND INVESTMENT PROPERTIES**

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

The increase in equity investments is influenced by the result recorded by the strategic JVs and acquisitions described in paragraph “Industrial and financial transactions” of the report on operations.
12. BUSINESS COMBINATION

During the first half of 2021 there were no business combinations.

During the first six months of 2020, and in particular on 8 April 2020, there was the closing of the transaction which involved the acquisition by Leonardo S.p.A. of 100% of the Swiss helicopter company Kopter Group AG (Kopter) from Lynwood (Schweiz) AG. The purchase price included a fixed component worth $mil. 185 on a cash free/debt free basis, in addition to an earn-out mechanism linked to specific objectives to be achieved during the term of the program, starting from 2022, the fair value of which was estimated in €mil. 17. The agreements also provided for Leonardo to take over the additional credit line granted by Lynwood to Kopter in 2020, amounting to €mil. 23. At the date of closing, the total outlay for Leonardo was €mil. 185, of which €mil. 123 to Lynwood and €mil. 62 to the Russian bank National Bank Trust to take over a loan previously granted to Kopter. The agreements provided for Leonardo to take over all of Lynwood’s accounts receivable from Kopter upon the closing (amounting to €mil. 122). The total of the Kopter debt positions to Leonardo was therefore equal to €mil. 184 at the date of the closing. Consequently, the cash out of the transaction consisted almost entirely of Leonardo taking over the debt positions of the acquired company Kopter.

With reference to the values being acquired, the Purchase Price Allocation - subsequently completed during 2020 – led to the following results:

<table>
<thead>
<tr>
<th>Net assets acquired</th>
<th>Book values</th>

</tbody>
</table>

Furthermore, in May 2020 the Group completed the acquisition of 100% of the share capital of the South African company Precision Aviation Services PTY LTD, operating in the helicopter sector, for a consideration equal to about €mil. 1.6. The values acquired did not generate any goodwill deriving from the acquisition.
13. TRADE RECEIVABLES, INCLUDING CONTRACT ASSETS

<table>
<thead>

</tbody>
</table>

The table below shows the fair value hierarchy for the financial assets and liabilities of the Group measured at fair value. The fair value of derivatives (classified under other current assets and liabilities) is determined on the basis of measurement techniques which consider directly observable market inputs (the so-called “Level 2”), while the payable to Bell Helicopter (classified under other non-current liabilities) and the earn-out linked to the acquisition of Kopter (classified under non-current loans and borrowings) are determined on the basis of measurement techniques which do not consider directly observable market inputs (the so-called “Level 3”). In particular, the fair value of the payable to Bell Helicopter was determined by discounting back the estimate of the variable amounts payable on the basis of the commercial performance of the programme. The fair value of the earn-out linked to the acquisition of Kopter was determined by discounting back the estimate of the variable amounts which will be payable on the basis of estimated achievement of defined targets. The increase in non-current liabilities is entirely related to the component linked to the payable to Bell Helicopter.

</tr>
</tbody>
</table>

The decrease in bonds compared to 31 December 2020 is attributable to the repayment of the remaining nominal amount of €mil. 739 of the bond issued (original nominal amount of €mil. 950), which reached its natural expiry in January 2021.

The increase in bank loans and borrowings was due to the drawdown, in January 2021, of the €mil. 200 loan raised with the European Investment Bank (EIB) in December 2020, aimed at supporting certain investment projects envisaged in the Group’s Industrial Plan.

During this half-year receivables were assigned without recourse for a total value of about €mil. 277 (€mil. 1,164 in the first half of 2020).

Some credit lines and debt positions of the Group imply the compliance with financial covenants, linked to two Financial ratios: the ratio of Group Net Debt excluding payables to the joint ventures MBDA and Thales Alenia Space and lease liabilities to EBITDA (including amortisation of rights of use) must not be higher than 3.75 and the ratio of EBITDA (including amortisation of rights of use) to Net interest must not be less than 3.25. These covenants are tested annually based on consolidated year-end data and the probability of default is not regarded as significant by the management. As reported in the Integrated Annual Report as at 31 December 2020, the tests on the data of the 2020 financial statements highlighted values largely within the ratios described above.

Below is the detail of the bonds at 30 June 2021 which shows the bonds issued by Leonardo (“LDO”) and by Leonardo US Holding, Inc (“LH”).

The item “other provisions” mainly includes provisions related to critical issues on contracts, especially in the Aeronautics, Helicopters and Defence Electronics and Security sectors.

In the Notes to the consolidated financial statements as of 31 December 2020, reference is made, in relation to risks, to criminal proceedings involving, for various reasons, Group companies. With respect to the information provided in such financial statements, to which reference should be made for a fuller description, the updates occurred in the first six months of 2021 are highlighted below, with reference to the criminal proceedings that are currently underway against a number of Group’s companies or Leonardo itself as well as certain former directors and executives, concerning acts committed during the performance of their duties at Group’s companies or at Leonardo itself.
On 22 May 2019 the Supreme Court rejected the appeals submitted against the judgment whereby on 8 January 2018 the Milan Court of Appeal had acquitted the former Chairman and Chief Executive Officer of Leonardo and the former Chief Executive Officer of AgustaWestland SpA of the charges for the crimes under Articles 110, 112, paragraph 1, 318, 321 and 322-bis, paragraph 2(2) of the Italian Criminal Code and Article 2 of Legislative Decree 74/2000, within the proceedings brought in relation to the supply of twelve AW 101 VIP/VVIP helicopters to the Indian Government.

In respect of these companies, it is recalled that on 25 July 2014, pursuant to Article 58 of Legislative Decree 231/2001, the Public Prosecutor dismissed the proceedings against Leonardo, holding groundless, following the conclusion of investigations, the Company’s involvement from both a factual and legal point of view. The Prosecutor also acknowledged that since 2003 the Company has adopted, actually implemented and regularly updated an Organisational, Management and Control Model that is conceptually suitable to prevent offences like the one in question and is also focused on compliance processes as to guarantee adequate standards of fairness and ethical conduct. In addition, on 28 August 2014 the Judge for Preliminary Investigations (GIP, Giudice delle Indagini Preliminari) of the Court of Busto Arsizio – in granting the motions put forth by the companies – imposed administrative penalties pursuant to Article 63 of Legislative Decree 231/2001 and Article 444 and ff. of the Italian Code of Criminal Procedure, amounting to €80,000 for AgustaWestland SpA and €300,000 for AgustaWestland Ltd, and ordered the confiscation of the equivalent of €mil. 7.5.

In this regard, on 20 April 2021 the Court of Appeal of Brescia, following the requests by AgustaWestland SpA and AgustaWestland Ltd for the review of the abovementioned rulings, revoked the rulings challenged and acquitted the abovesaid companies; times for a possible appeal to the Supreme Court are pending.

As regards the investigations started by the Indian Judicial Authority (CBI) in February 2013 for the same facts referred to above, on 2 February 2018 a notice was served on AgustaWestland International Ltd., whereby the latter was invited to appear at the hearing to be held on 30 May 2018 before the Patiala House Court in New Delhi within the criminal proceedings brought therein against the aforesaid company and other entities and persons, including Leonardo Spa. On 13 April 2018 the Milan Public Prosecutor’s Office served the abovementioned notice of invitation to appear at the hearing on 30 May 2018 on Leonardo Spa. The Company submitted an application for enforcement review before the Judge for Preliminary Investigations (GIP) of the Court of Milan, which was rejected on 22 May 2018, as well as an appeal before the Lazio Regional Administrative Court. The Company also took the same legal actions with respect to the service of the notice of invitation to appear in court at the hearing on 10 September 2018. By a judgment dated 3 July 2019, the Lazio Regional Administrative Court rejected the appeals submitted by Leonardo Spa.; the Company then filed an appeal against the abovementioned measures. By a judgment dated 7 May 2020 the Council of State granted the appeals submitted by Leonardo.

Leonardo Spa has brought the same lawsuits before the administrative Court and before the Judge for Preliminary Investigations of the Court of Milan, including with reference to the services of notice of invitation to appear at the hearings set on 18 September 2019 and 18 December 2019.
On the contrary AgustaWestland International Ltd appeared at the hearings set within the proceedings brought by the Central Bureau of Investigation; the proceedings are continuing before the Patiala House Court of New Delhi.

On 28 August 2019 the Public Prosecutor’s Office of Milan served on Leonardo Spa a notice of invitation to appear at the hearing of 18 September 2019 within further proceedings brought by the Indian Judicial Authority (Directorate of Enforcement) in relation to the supply of 12 AW 101 VIP/VVIP helicopters to the Indian Government. The Company submitted an application for enforcement review before the Judge for Preliminary Investigations (GIP) of the Court of Milan, as well as an appeal with the Lazio Regional Administrative Court, even in relation to this notice.

Finally, it should be noted that on 11 February 2020 a notice was served on AgustaWestland International Ltd whereby it was invited to appear in court within the proceedings brought by the Indian Judicial Authority (Directorate of Enforcement);

- On 23 March 2021 the Court of Naples acquitted an employee of the then Elsag Datamat (now Selex ES SpA) of the crimes referred to in Articles 353 and 326 of the Italian Criminal Code, the former Chief Executive Officer and an employee of the then Elsag Datamat of the crime referred to in Articles 326, 353 and 416 of the Italian Criminal Code, as well as it acquitted Selex ES of the offence under Article 24-ter, para. 2, of Legislative Decree no. 231/2001, within the criminal proceedings concerning contracts awarded to the then Elsag Datamat and to another company for the development, respectively, of the integrated traffic monitoring system of the city of Naples and video-surveillance systems for a number of municipalities within the Province of Naples;

- On 26 May 2021 the Judge for Preliminary Investigations (GIP) of the Court of Benevento, following a request by the Public Prosecutor, ordered the dismissal of the criminal proceedings brought against the Manager responsible under Legislative Decree 152/06 for the Benevento Plant (Helicopters Division) as to the crime referred to in Article 452-quinquies of the Italian Criminal Code.

Based upon the information gathered and the results of the analysis carried out so far, the Directors of Leonardo did not allocate any specific provisions in relation to these cases. Any negative developments - which cannot be foreseen, nor determined to date - arising from any internal investigations or judicial investigations being conducted, will be subject to consistent assessment for the purposes of provisions (if any).

* * * * * * * *

With regard to the provisions for civil, tax and administrative disputes, it is underlined that the Leonardo Group companies’ operations regard industries and markets where many disputes, both as petitioner and plaintiff, are settled only after a considerable period of time, especially in cases where the customer is a government entity. Pursuant to the IFRSs, provisions have only been set aside for risks that are deemed probable and for which the amount can be determined. No specific provisions have been set aside for certain disputes in which the Group is defendant as these disputes are reasonably expected to be settled, based on current knowledge, satisfactorily and without significantly impacting the Group. Compared to what was already described during the preparation
of the 2020 consolidated financial statements, to which reference should be made, note the following updates:

- the proceedings brought by Firema under extraordinary management before the Court of Naples against the directors and statutory and independent auditors of Firema Trasporti (R.G. 32257/13) in order to have them declared responsible for the financial collapse caused to the company, within which Leonardo and AnsaldoBreda have been summoned as parties concerned, have been finally postponed to the hearing scheduled on 21 October 2021, in order to discuss whether they must be joined to proceedings R.G. no. 16312/15 described below. It should be noted that, within these proceedings, two of the defendants and specifically the former directors Giorgio and Gianfranco Fiore summoned Leonardo and AnsaldoBreda in court, on the grounds of an alleged abusive exercise of management and coordination activities that, according to them, was perpetrated by the parties summoned to the detriment of Firema. On the basis of this assumption, Giorgio and Gianfranco Fiore therefore requested, primarily, that Leonardo and AnsaldoBreda be ordered to pay direct compensation to the plaintiff for any damages that should be ascertained, which they presumed to be €mil. 262 and which is equal to Firema's liabilities, and, alternatively, to be held harmless by the aforesaid companies.

As to the action brought by GMR against Leonardo and AnsaldoBreda before the Court of Naples (R.G. 16312/15), in the hearing of 24 June 2021, the court referred the case to the judge of the proceedings described above for the joinder of the cases.

It should be noted that, within these proceedings, the plaintiff company states that Firema Trasporti was allegedly subject, during the period in which Leonardo held an investment in it (from 1993 to 2005), to management and coordination activities that were carried out to its detriment and in the sole interest of the Leonardo Group and that, even after the sale of the aforesaid investment, Firema Trasporti was allegedly de facto subjected to an abuse of economic dependence from the abovementioned Leonardo Group in performing the various agreements existing with AnsaldoBreda.

In both proceedings Leonardo and AnsaldoBreda appeared before the court requesting that, on the merits, the claims submitted against them be dismissed as clearly groundless as of fact and as of right.

- The case involved in the action brought before the Court of Rome by Selex Service Management against the Ministry for the Environment, Land and Sea in relation to the performance of the Sistri contract, within which after the pretrial hearing of 8 July 2021 the judge adjourned the case and set the parties time limits for the exchange of closing arguments. It should be also noted that on 18 December 2020 the Ministry took steps to pay the company an additional sum of € 87,920,397 relating to the final payment of the fixed amount set out in the aforesaid contract.

It should be noted that the Sistri contract was signed between the Ministry for the Environment, Land and Sea and Selex Service Management in December 2009 in relation to the design, operation and maintenance of the System for Waste Tracking until 30 November 2014. The performance of the contract was affected by a number of legislative acts aimed at postponing the time at which it was to come into force, at a drastic reduction of the categories of persons under an obligation to adopt the system, at introducing simplification and/or
optimisation measures of the system and at indefinitely postponing the applicable penalties. Such legislative acts had a significant impact on the financial stability of the contract, which was further impaired by the non-payment of a large part of the amounts due to the company.

Following the refusal of jurisdiction of the arbitration panel served on the company on 19 February 2015 by the Government Lawyers, the Company brought a legal action against the said Ministry before the Court of Rome, in order to seek a declaration that the contract had expired on 30 November 2014 and obtain the payment of the agreed fees and compensation for damages.

Following the order dated 17 February 2016, which granted the claim submitted by Selex Service Management pursuant to Article 186-ter of the Italian Code of Civil Procedure, the Ministry paid the plaintiff company an amount of €mil. 17.

Moreover, given their complexity, their cutting-edge technological content and the nature of customers, the Group’s long-term contracts are sometimes affected by disputes with customers in relation to the compliance of works with customer specifications and product performances. The Group adjusts the estimated contract costs for foreseeable issues, also taking into account the possible developments in the relevant disputes. With regard to contracts in progress affected by uncertainties and issues under discussion with customers, no significant updates are reported with respect to what was already described during the preparation of the 2020 consolidated financial statements.

The Group recorded short-term lease rentals for €mil. 21 and lease rentals for low-value assets for €mil. 5 during the half-year.

The average workforce at 30 June 2021 (49,470 people) showed an increase compared to 30 June 2020 (49,270), above all due to the increase in the number of staff members at Leonardo DRS (+188) and in the Aeronautics Division (+97).

The breakdown of the total workforce is as follows:

<table>

<td></td>
<td></td>
</tr>
<tr>
<td>Other financial income and expenses</td>
<td>2 (17) (15)</td>
<td>4</td>
<td>17 (13)</td>
<td>(94)</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>81 (217) (136)</td>
<td>64</td>
<td>(158)</td>
<td>(94)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The decrease in net expenses compared to the previous period was attributable to the lower premiums paid on forwards, lower interest arising from the redemption of the bond issue occurred in January 2021 and the results of the fair value measurement of derivatives.
26. SHARE OF PROFITS (LOSSES) OF EQUITY-ACCOUNTED INVESTEES

<table>
<thead>
<tr>
<th></th>
<th>For the 6 months ended 30 June</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>2020</td>
</tr>
<tr>
<td>Space Alliance</td>
<td>(10)</td>
</tr>
<tr>
<td>MBDA</td>
<td>20</td>
</tr>
<tr>
<td>GIE ATR</td>
<td>(34)</td>
</tr>
<tr>
<td>Strategic Joint Ventures</td>
<td>(24)</td>
</tr>
<tr>
<td>Other</td>
<td>(3)</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>(27)</td>
</tr>
</tbody>
</table>

The higher contribution deriving from the equity-accounted investments is basically attributable to the manufacturing sector of the Space Alliance which was influenced by a good industrial performance as well as by the economic benefit registered by the Italian component deriving from the effects of the realignment between the tax and statutory value of goodwill, in compliance with the tax concessions provided for by the Decree “Urgent measures to support and revive the economy”.

There were also positive effects from the increase in deliveries and actions taken to reduce costs related to the GIE-ATR consortium.

27. INCOME TAXES

<table>
<thead>
<tr>
<th></th>
<th>For the 6 months ended 30 June</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>2020</td>
</tr>
<tr>
<td>Current taxes</td>
<td>(38)</td>
</tr>
<tr>
<td>Tax related to previous periods</td>
<td>(7)</td>
</tr>
<tr>
<td>Deferred tax - net</td>
<td>16</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>(29)</td>
</tr>
</tbody>
</table>

In this half-year financial report Leonardo S.p.A reflected the effects of the tax concession provided for by Article 110 of Law Decree 104/2020, since it intends to make use of the option to realign the tax values of goodwill with the higher book value. In June 2021 the Company paid the first of the 3 annual instalments of the substitute tax, totally amounting to about €mil. 19, calculated on the value to realign for tax purposes for €mil. 624. As a result of the realignment the goodwill book value acquires full tax relevance and becomes tax deductible over 18 years. The exercise of the realignment option requires to set aside a reserve subject to tax relief for tax purposes, equal to the amount of the realignment net of the substitute tax, which reserve can be released pursuant to paragraph 3 of Article 110 of Law Decree 104/2020. Considering the occurred realignment of the said values Leonardo recognised the deferred tax liabilities priorly recorded and recognized a benefit of €mil. 48 accordingly.

28. ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS

Following the sale of the Vitrociset space business unit to Telespazio, as at 30 June 2021 there are no assets and liabilities that can be classified as held for sale.

As largely described in the Annual Financial Report as at 31 December 2020, to which reference is made, the space business unit of Vitrociset Spa and that of its investees (Vitrociset Belgium S.p.r.l.
and Vitrociset France S.a.r.l.) were intended for a sale transaction in favour of the Space Alliance (specifically Telespazio SpA).
Therefore, the value of the assets and liabilities held for sale included, as at 31 December 2020, the values of the abovementioned space business unit for a net amount of €mil. 38, plus the value of the fixed assets owned by Leonardo Global Solutions that were held for sale for €mil. 9.

<table>
<thead>
<tr>
<th></th>
<th>31 December 2020</th>
<th>30 June 2021</th>
</tr>
</thead>
<tbody>
<tr>
<td>Non-current assets</td>
<td>35</td>
<td>-</td>
</tr>
<tr>

</tr>
<tr>
<td><strong>Liabilities associated with assets held for sale</strong></td>
<td><strong>25</strong></td>
<td>-</td>
</tr>
<tr>
<td></td>
<td></td>
<td>47</td>
</tr>
</tbody>
</table>

There was no impact on the income statement deriving from the discontinued operations during the first half of 2021.
With reference to 30 June 2020, the abovesaid space business unit represented a group of assets acquired for the purposes of a subsequent sale and, therefore, the related results of operations were also classified among “Discontinued Operations” (a net result of €mil.1).

<table>

(*) Consortia over which the Group exercises considerable influence or which are subject to joint control.
Trade receivables are commented on later, along with revenue from related parties. Loans and receivables mainly refer to receivables from joint ventures. Related-party loans and borrowings include in particular the amount of €mil. 682 (€mil. 663 at 31 December 2020) due by Group companies to the joint venture MBDA and payables for €mil. 43 (€mil. 45 at 31 December 2020) to Eurofighter, as well as payables of €mil. 20 to Leonardo Helicopteres Algerie for capital to be called up. The financial debt to Cassa Depositi e Prestiti (€mil. 100) relates to the loan raised at the beginning of the year in support of investments in research, development and innovation envisaged in the Industrial Plan.

(*) Consortia over which the Group exercises considerable influence or which are subject to joint control

The most significant trade receivables and revenues, in addition to those from joint ventures, are related to the following companies:

- Eurofighter in the scope of the EFA aeronautical programme;
- NH Industries in the scope of the NH90 helicopter programme;
- Orizzonte - Sistemi Navali for the FREMM programme;
- Iveco-Otomelara Scarl for the commercialisation of VBM Freccia;
- Macchi Hurel Dubois for the commercialisation of nacelles.
Costs, in addition to those to joint ventures, are mainly related to:

- Eurofighter and Gulf System for operations in the scope of the EFA/Kuwait aeronautical programme; in particular the decrease in costs to Eurofighter is justified by lower deliveries compared to the period under comparison in which deliveries of major components concentrated, such as fuselages and wings, while that to Gulf reflects the completion of the infrastructures built in Kuwait;

- Subsidiaries or entities subject to significant influence on the part of the Ministry of Economy and Finance, in particular linked to the Qatar Emiri Naval Forces (QENF) – Corvette programme.

For the Board of Directors

The Chairman

Luciano Carta

STATEMENT ON THE CONDENSED CONSOLIDATED HALF-YEAR FINANCIAL STATEMENTS AT 30 JUNE 2021 PURSUANT TO ART. 154 BIS, PARAGRAPH 5, OF LEGISLATIVE DECREE NO. 58/98 AS AMENDED AND SUPPLEMENTED

1. The undersigned Alessandro Profumo as Chief Executive Officer and Alessandra Genco as the Officer in charge of financial reporting for Leonardo Società per azioni, certify, in accordance with Art. 154-bis, paragraphs 3 and 4 of Legislative Decree 58 of 24 February 1998:
   • the appropriateness of the financial statements with regard to the nature of the business and
   • the effective application of administrative and accounting procedures in preparing the condensed consolidated half-year financial statements at 30 June 2021.

2. In this respect it is noted that no significant matters arose.

3. It is also certified that:
   3.1 The condensed consolidated half-year financial statements:
      • were prepared in accordance with International Financial Reporting Standards endorsed by the European Community pursuant to Regulation (EC) 1606/2002 of the European Parliament and of the Council of 19 July 2002;
      • correspond to the entries in the books and accounting records;
      • were prepared in accordance with Article 154-ter of the aforesaid Legislative Decree 58/98 and subsequent amendments and integrations and they provide a true and fair view of the financial position and results of operations of the issuer and the companies included in the scope of consolidation.

   3.2 The directors’ interim report on operations provides a reliable analysis of the important events taking place in the first six months of the year and their impact on the condensed consolidated half-year financial statements, together with a description of the key risks and uncertainties for the remaining six months of the year. The directors’ interim report on operations also includes a reliable analysis of significant transactions with related parties.

This statement is also made pursuant to and for the purposes of Art. 154-bis, paragraph 2, of Legislative Decree 58 of 24 February 1998.

Rome, 29 July 2021

INDEPENDENT AUDITORS’ REPORT ON THE REVIEW OF THE CONDENSED CONSOLIDATED HALF-YEAR FINANCIAL STATEMENTS AT 30 JUNE 2021
Leonardo S.p.A.

Review report on the interim condensed consolidated financial statements as of 30 June 2021

(Translation from the original Italian text)
Review report on the interim condensed consolidated financial statements  
(Translation from the original Italian text)

To the Shareholders of Leonardo S.p.A.

Introduction

We have reviewed the interim condensed consolidated financial statements, comprising the condensed separate income statement, the statement of comprehensive income, the condensed statement of financial position, the statement of cash flow, the statement of changes in equity and the related explanatory notes of Leonardo S.p.A. and its subsidiaries (the Leonardo Group) as of 30 June 2021. The Directors of Leonardo S.p.A. are responsible for the preparation of the interim condensed consolidated financial statements in conformity with the International Financial Reporting Standard applicable to interim financial reporting (IAS 34) as adopted by the European Union. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with review standards recommended by Consob (the Italian Stock Exchange Regulatory Agency) in its Resolution no. 10867 of 31 July 1997. A review of interim condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing (ISA Italia) and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the interim condensed consolidated financial statements.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim condensed consolidated financial statements of Leonardo Group as of 30 June 2021 are not prepared, in all material respects, in conformity with the International Financial Reporting Standard applicable to interim financial reporting (IAS 34) as adopted by the European Union.
Other matters

The consolidated financial statements for the year ended 31 December 2020 and the interim condensed consolidated financial statements for the half-year period ended 30 June 2020 have been respectively audited and reviewed by another auditor who expressed an unqualified opinion on the consolidated financial statements on 11 March 2021 and expressed an unqualified conclusion on the interim condensed consolidated financial statements on 31 July 2020.

Rome, 30 July 2021

EY S.p.A.
