Leonardo Investor Day
Focus on US Business

Investor Relations and Credit Rating Agencies

Philadelphia, 24 October 2019
Agenda

• Executing our Industrial Plan

  Alessandro Profumo, Chief Executive Officer

• Focus on businesses

  > Helicopters: on track for sustainable growth
  Gian Piero Cutillo, MD Helicopters Division

  > Electronics: a gem in the crown
  Norman Bone, MD Electronics Division

  > Leonardo DRS: poised to continue growth and expand margins
  William J. «Bill» Lynn III, CEO Leonardo DRS

• Creating value building a sustainable long term business

  Alessandro Profumo, Chief Executive Officer
Key messages

- The Industrial Plan is on track
  - We are delivering through our businesses across the Group
    - Helicopters turnaround progressing well
    - Defence Electronics businesses going from strengths to strengths
    - DRS strongly outperforming the attractive US market
  - Achieving successful international commercial strategy
  - Ambitious about the opportunities for continued growth in the US
Agenda

• Executing our Industrial Plan
  
  Alessandro Profumo, Chief Executive Officer

• Focus on businesses
  
  > Helicopters: on track for sustainable growth
    Gian Piero Cutillo, MD Helicopters Division

  > Electronics: a gem in the crown

• Creating value building a sustainable long term business
  
  Alessandro Profumo, Chief Executive Officer
On track for sustainable growth

- Successfully achieving our Industrial Plan targets, notwithstanding challenging civil market
- Performing pretty well in Military market
- Weakening civil market, keeping our leadership position (especially 3-10 tonne)
- Stronger offer for Customer Support & Training and digitalization
- Targeted investments in our future products, services and technologies
- Strengthening further our commitment to Safety
- US increasing relevance
Fully focused on Industrial Plan Objectives: returning to sustainable growth

- Committed to top line increase, 2017-2020 CAGR ≥ 5%
  - Military and Customer Support & Training ahead of schedule…
  - …more than compensating current civil market challenges
  - New commercial initiatives to sustain civil sales

- Double digit profitability by 2020 confirmed
  - Reaping the benefits of launched actions
  - Profitability recovery slightly faster than planned
  - Cash conversion improving but working capital level still high

- Increasing our international Customers base to reduce risk and maximise geographical reach
Attractive military market supported by new opportunities

**GLOBAL MILITARY MARKET**

- **Total market value $bn per year**
  - Combat
  - Naval
  - Utility/ Multi-Role Heavy
  - Utility/ Multi-Role Medium
  - Utility/ Multi-Role Light

  
  
  
  
  
  
- **Average 2014-18A**
- **Average 2019-23F**

- **Opportunist market, substantially flat in the next five years:**
  - New procurement cycles launched in specific countries
  - Need of replacing aging fleets
  - Expected increasing importance of military variant of dual use helicopters, especially for multirole segment

- **Leonardo addressable market ~40%**

- **We outperformed the Military market thanks to focused sales effort:**
  - Leveraging on competitive dual use and specialized platforms
  - Consolidating the current Customers base and penetrating new geographies
  - Selected cooperative efforts

**FOCUSED EFFORT ON KEY GEOGRAPHIES**

Indicative and not exhaustive

- Spain
- Poland
- Qatar

MH-139

© 2019 Leonardo - Società per azioni
Civil Market reducing pace, we remain leader

- Civil market slightly decreasing trend in 2019-21
  - Uncertain macro economic situation
  - Operating lessors financial issues
  - Difficulties of some large operators with knock-on effect on other operators
- Market expected back to growth from ~2022
  - Intermediate class main growth driver
  - EU and US by far the most important markets, China fastest pace
- We remain very well positioned
  - All our helicopters are continuing to fly (flight hours constantly increasing)
  - Almost the only OEM that has performed sales in the O&G segment
  - Clear leadership in the twin engine
  - Delivered 1000th AW139 in Sept ‘19

Source: Internal analysis on Leonardo Helicopters reference civil market (based on deliveries evaluated at standard prices); Re-evaluated at Economic Conditions 2019.
Customer Support & Training is a priority business in a growing market

**MARKET**

*In service fleet evolution, # Helicopters*

- **Emerging Markets**
- **Mature Markets**

- **Civil Outlook (CAGR '18-'28)**
  - ~4%

- **Military Outlook (CAGR '18-'28)**
  - ~2%

**LEONARDO**

- **Pay by the Hour penetration (AWFamily)**
  - 15%
  - >50%

- **Trained students**
  - 600
  - >10,000

- **Simulator Training Hours flown**
  - 2,900
  - >41,000

**Priority business:**
- Steadily growing business, resilient to market fluctuations
- Driven by our growing fleet, higher flight hours per helicopter, wider service portfolio
- High impact on Customers satisfaction and retention
- Mission effectiveness and safety

**Key investment area:**
- Innovative digital services to increase Customers’ service level and value generation
- Advanced services to maximize fleet availability
- Global footprint and customer proximity
- Worldwide logistics to guarantee next day parts delivery to Regional Customers
Balanced orders across Commercial, Military and Customer Support & Training

**Balanced volumes across the 3 core segment:** Commercial, Military & Governmental, Customer Support & Training

**Military & Governmental and Customer Support & Training offsetting lower Commercial volumes**

* Purely directional data
Investing in innovative products and disruptive technologies

Dual-use TiltRotors and RUAV introducing a step change in mission capabilities to better respond to current and new operational needs

- Advanced Materials & Processes
- Real-time sensors & Advanced Analytics
- Algorithms for Cyber-Protection
- Advanced Power Management

Noise Reduction and Passenger Comfort Improvement
Payload fraction Improvement
Green Technologies
Avionics
Modelling & Simulation
Transversal technologies and helicopters-focused technologies are the key pillar to sustain long term competitive advantage
Safety is a core Company value

- Strongly committed towards continuous improving our Safety
- We look at helicopter as a “system”, not only as a platform
- New “Safety Systems Governance” in place
- Focus on state of the art processes, products and services...
- … leveraging on internal “network of safety partners” and collaborating with external “Safety Stakeholders”
We have global reach

GLOBAL INDUSTRIAL FOOTPRINT

GLOBAL MARKET

 Domecic Markets
Increasing position in the US domestic market: proud to serve our Customers in American skies

Industrial Center of Excellence

• Our Philadelphia facility from assembly plant to Centre of Excellence
• ~500 Mln€ revenues from our US facility;
• Home of innovative AW609 development and manufacturing
  • Leadership and management of complex programs (i.e. MH-139 and TH-119 development)
• New state of the art Training Academy launched in 2019

Key growing market

• Our US fleet doubled in 10 years
• ~250 Mln€ revenues from US customers in 2018 (+60% vs 2016)
• We are the OEM that generated more revenues from civil helicopter deliveries in 2018 for the second year in a row
• We want to develop our US business further
  • MH-139 selected by US Air Force opening new opportunities in US and abroad
  • TH-119 perfect choice to meet US Navy TH-XX requirements
  • Product specific and commercial actions focused on the US civil customers
Agenda

• Executing our Industrial Plan

Agenda

1. The change

2. The rationale – reminder

3. The journey – so far

4. The plan – update

5. The benefit
Key messages

• A bigger Division, addressing the largest part of the A&D market

• Bringing Business Units together to make them stronger, through
  - Internationalisation
  - Focus on performance
  - Product Development Synergies

• High quality businesses with real momentum

• Delivering on promises to execute to schedule

• Significant opportunity ahead
  - Double digit profitability
  - Cash conversion well above Group average
  - CAGR in excess of market trend
  - Delivering long term sustainable growth

TODAY

  - Focus on performance
  - Internationalisation
  - US Market
  - Sustainable Growth
One Electronics Division within One Leonardo

- On 1\textsuperscript{st} February 2019 Leonardo creates a new Electronics Division, which brings together the former
  - Airborne and Space Systems Division
  - Land and Naval Defence Electronics Division
  - Defence Systems Division
  - Automation Systems and Traffic Control Systems Lines of Business (both formerly under Security and Information Systems Division)

- Automation managed separately
  - Long term strategic direction
  - Execution issues to be addressed

- Cyber outside division – specific focus area

- Vitrociset added to perimeter

- Addressed historical inconsistencies
  - E.g. air traffic control

- Created the right structure to enhance commercial performance
How we are going to do it…

Fully focused on people, delivery and execution
Transition Plan to be accomplished over the medium term

**15 WORKSTREAMS CREATED (WS)**

- Two WS are Turnaround of 2 lines of business
- Four WS relate Engineering including Research and Development
- One WS in Marketing and Sales
- Four WS in Operations and Procurement
- One WS in UK Cost Efficiency
- Two WS in People and Structure and Culture
- One WS for Information & Technology
Turnaround

AUTOMATION AS WAS
• Good Technology
• Able to compete in the market
• Poor Execution
• Inadequate disciplines
• Skilled resource shortage

TRAFFIC CONTROL SYSTEMS NOW
• Able to complete in the market
• Competitive Technology
• Delivery on time poor
• Customer support inadequate
• Organised on market structure

FUTURE AUTOMATION
• New Structure
• Integrated Project Team
• Configuration Control
• Account management principles
• Reviewing partnership models

FUTURE TRAFFIC CONTROL SYSTEMS
• Embedded into Land & Naval Business Unit
• Common Radar development team created between Naval/Air Defence Lines of Business and TCS
• Investing in production for support
• Account management principles
• Reviewing Strategic Market position
Our path to double digit profitability…

2019 EBITA – ROS (%)

- Airborne and Space Systems
- Defence Systems
- Land and Naval Defence Electronics
- Security and Information Systems

TARGET

SIZE = REVENUES

Consistency of delivery to underpin the Industrial Plan
Diversity through internationalisation

- In 2019, the Division is forecasting to take around 800 new contracts, with 90% of these being less than €10Mln in value
- More than 3500 projects and prospects are managed across the Division at any time
- 39% of Orders in 2019 are in our Italy & UK Domestic Markets
- In 2019, the Middle East is our largest export region at ~17% of order intake; Qatar is our largest customer, followed by Saudi Arabia, Kuwait and the UAE
- Central Asia is at ~6% of Order Intake with the largest export customer Naval Systems (Turkmenistan)
- ~5% of the Division’s 2019 Order Intake is from ~45 other countries and agencies, most of which are <1% each of the order intake
Well Diversified Order Intake Full Year 2019

**MARKET**

Tempest – Typhoon to Typhoon LTE and Beyond

• In July 2018 the UK Government launched its Combat Air Strategy, delivering an ambitious vision for the future

• The strategy confirmed the UK’s intent to remain at the cutting edge of combat air systems development in order to meet the UK’s National Security Objectives - to best protect its people, project influence and promote prosperity

• The strategy set out a clear statement of intent as to how the UK will preserve its national advantage and maintain choice in how combat air capability is delivered

• This commitment includes working alongside international partners to develop and deliver the best possible capability

• Leonardo UK Electronics selected as core partner
Electronics UK & Italy – Next Pillar

• On the 10th September the Governments of Italy and the UK signed a Statement of Intent (SOI) as a broad pledge to cooperate on matters of “combat air capability.” The idea is to “deepen discussions on Tempest military requirements,” come up with a “road map” for feeding advanced Eurofighter capabilities into the future programme, and facilitate an industry ecosystem to make it all happen.

• The inclusion of Italy in the programme marks the third partner nation, following Sweden in July.

• Both of our national industries have a strong pedigree of working well together (e.g. Tornado, Typhoon) and offer key complementary capabilities.

• We also hold similar views on the future operating environment and share an aspiration for an affordable and sustainable industrial base.

• Effective international partnering was identified as fundamental to the Combat Air Acquisition Programme.
Achieving our full potential...

  Alessandro Profumo, Chief Executive Officer
Overview

We have eight lines of business organised into three customer-facing sectors

- Leading U.S. mid-tier defence company with over 6,500+ employees worldwide
- Recent reorganisation and customer focus has created diversified product portfolio
- ‘Mid-tier’ level creating significant market advantage
  - Platform ‘agnostic’
  - Agile decision making
  - Streamlined lean cost structure
Leonardo DRS contributing to Leonardo’s Industrial Plan targets

• **US Defence Budget continues to rise**
  - 2020 Projects healthy 3% growth
  - Growth curve ‘flattens’ in 2021 & beyond but spending at historically high levels with bipartisan support

• **Leonardo DRS uniquely positioned to excel in current market dynamics**
  - Leonardo DRS revenue growth continues to outperform U.S. defence market
  - Mid-Tier Position enabling enhanced ‘quick to market’ strategy accelerating growth
  - Growth driven by *strong product alignment* with Army and Navy modernisation initiatives

• **Profitability growth**
  - Current Profit (EBITA) growing at double digit rates annually
  - Future Margin Expansion driven by a combination of factors
  - Product portfolio allows for strong EBITA to Free Cash Flow conversion

*Leonardo DRS poised to continue growth and expand margins*
US Defense Budget Outlook

- **New Two Year Budget Deal in Congress**
  - Raises FY20 & FY21 budget caps and ends sequestration
  - Stabilised defence planning

- **DOD Budget Growth of 3%, from already high historical base levels, in FY20**
  - Strong defence budget of 5% growth for 2017-2019
  - FY20 BBA deal provides $738B topline – 3% growth

- **FY21 and beyond, Growth Flattens Out**
  - 2021 budget only $3B higher than 2020 – flat budget

- **Budgets Support National Defence Strategy**
  - Operationalise National Defence strategy
  - Modernise air, maritime, and land domains
  - Develop and field innovative technologies
  - Recapitalise legacy equipment to field new systems

*Despite ‘Flattening’ Budget – Leonardo DRS positioned to outperform market resulting from strategic portfolio alignment*
Growth: Leonardo DRS outperforming US defence market

LEONARDO DRS ALIGNED IN HIGH GROWTH SEGMENTS

- Army Electronics & Sensors
  - Product alignment within Army’s key modernization priorities fueling continued growth
  - 2018 Revenue Growth – 26%
  - 2017 Revenue Growth – 35%

- Naval Systems
  - Provides power propulsion and control technology as well as shipboard electronics and computing on the Navy’s highest priority platforms
  - 2018 Revenue Growth – 32%
  - 2017 Revenue Growth – 7%
Six Army Modernisation Priorities Driving Growth

- **Next-Generation Combat Vehicle**
  - Aligned to be positioned for situational awareness and targeting, including next generation sensing and Active Protection System

- **Future Vertical Lift**
  - Positioned to protect the platform through combination of degraded visual environment optics as well as state of the art infrared counter-measure (IRCM) solutions

- **Network**
  - Leonardo DRS has secured the Army baselined rugged computing solution on all ground combat vehicles

- **Air and Missile Defence**
  - Received contracts to support Counter UAS and Short-Range Air Defence solutions on the ground and IRCM defences for airborne platforms

- **Soldier Lethality**
  - Designed next generation weapon sights and targeting systems providing soldiers battlefield over-match

- **Long-range Precision Fire**

*Leonardo DRS well balanced across Army’s major initiatives driving growth opportunities*
Army Growth: Quick Response = Rapid Growth

- New environment has rewarded innovative companies that are quick to market and cost competitive
  - Leonardo DRS organisational structure affords both streamlined decision making coupled with a lean cost structure resulting above market growth
  - Across all modernisation priorities is an element of ‘Force Protection’ for both our soldiers, and infrastructure
    - The successful penetration of the this new market has fostered our above market growth and is fueling the optimism for sustained growth into the future

- Force Protection Success
  - Trophy Active Protection System – to supply 4 brigades of Abrams Tanks to automatically detect and destroy incoming projectiles
  - Counter Unmanned Aircraft Systems – supplying the US army with both hard and kinetic defeat capabilities
  - Infrared Counter Measures – Protecting aircraft from heat-seeking missiles

Force protection generated over $750m of contract value received to date with 3x that amount in ‘soft backlog’ for production opportunities

EBITA (excluding TX Investment)

MARGIN EXPANSION

• 17% EBITA CAGR supporting increased shareholder return

• Increased EBITA margins drive free cash flow generation
  o Programme portfolio / required investments allow for above market conversion of EBITA into FCF

• 4 Levers to Further Profit Enhancement
  o Revenue growth
  o Operation Excellence
  o Selective Investments
  o Programme life-cycle

Leonardo DRS to deliver +10% operating margins during the plan period
4 Levers of Improved Profitability

**TOP LINE GROWTH EXCEEDS COST BASIS**
- Revenue Growth Trend Secure
- Maintain lean environment to enable competitive advantage while increasing shareholder returns

**PROGRAMME LIFE CYCLE TRANSITION**
- War-Time spending accelerated procurement of mature production hardware
- Recent modernisation awards have ‘refilled’ the funnel driving revenue growth trends, creating larger portion of development type programs
- As these next generation programmes move towards a healthier production mix, ROS will expand

**OPERATIONAL EXCELLENCE**
- Project launched geared at enhancing returns through a combination of efficiencies and cost cutting efforts
  - Enhanced manufacturing – reduction in scrap and rework
  - Supply chain focus – consolidation of vendors driving out cost through economies of scale

**SELECTIVE INVESTMENTS**
- Higher base business allows for more selective pursuits, reducing dependency on dilutive pursuits
  - Stay within our Core Capabilities
  - Utilise investments on existing development jobs to reduce risk on future opportunities

Multiple levers drive Leonardo DRS margin expansion
**Development Programme Transition**

**TIMELINE OF EVENTS**

- ‘War-Time’ spending drove large production bubble in 2008 - 2012
- 2015-2018 Leonardo DRS awarded ‘next generation’ design programmes geared at refreshing existing technologies for network, soldier systems, ground vehicle sensing and airborne survivability
- 2019-2020 Leonardo DRS begins fielding these programmes at Low Rate Initial Production (LRIP) levels
- 2021 & Beyond – newly awarded next generation programmes transition into sustained production base returning development to normal steady state level of total revenue

**Programme Life Cycle supports continued margin expansion**
Key Takeaways

• Optimistic on Growth Trajectory
  o Multi-year revenue CAGR and H1 2019 results confirm continued growth that exceeds industry peers
  o Leonardo DRS remains well aligned with Pentagon’s major procurement priorities
    • Army Electronics & Sensors well positioned within the U.S. Army’s modernisation priorities
      o Successful penetration into adjacent markets driving increased optimism
      o Recent wins poised to enter into production, increasing revenue volumes
    • Naval Systems poised for continued growth based on ship-building and fleet modernisation efforts
      o Naval electronic systems growth driven by fleet modernisation efforts on network, radar and combat systems
      o Expanding market leading power and propulsion solutions onto increased ship-building priorities

• Profit is Growing, Confident in Future Profitability Expansion
  o Revenue growth, programme life-cycle, efficiency efforts launched and selective pursuits all support continued margin expansion over the budget plan period
  o Profit expansion will drive increased FCF performance while maintaining our already above market FCF conversion of EBITA

Leonardo DRS positioned for continued success
Agenda

• Executing our Industrial Plan
  Alessandro Profumo, Chief Executive Officer

• Focus on businesses
  > Helicopters: on track for sustainable growth
    Gian Piero Cutillo, MD Helicopters Division

(1) Based on rating as of 30/06/2019
(2) Average. Expected to be renewed at maturity
SAFE HARBOR STATEMENT

NOTE: Some of the statements included in this document are not historical facts but rather statements of future expectations, also related to future economic and financial performance, to be considered forward-looking statements. These forward-looking statements are based on Company’s views and assumptions as of the date of the statements and involve known and unknown risks and uncertainties that could cause actual results, performance or events to differ materially from those expressed or implied in such statements. Given these uncertainties, you should not rely on forward-looking statements.

The following factors could affect our forward-looking statements: the ability to obtain or the timing of obtaining future government awards; the availability of government funding and customer requirements both domestically and internationally; changes in government or customer priorities due to programme reviews or revisions to strategic objectives (including changes in priorities to respond to terrorist threats or to improve homeland security); difficulties in developing and producing operationally advanced technology systems; the competitive environment; economic business and political conditions domestically and internationally; programme performance and the timing of contract payments; the timing and customer acceptance of product deliveries and launches; our ability to achieve or realise savings for our customers or ourselves through our global cost-cutting programme and other financial management programmes; and the outcome of contingencies (including completion of any acquisitions and divestitures, litigation and environmental remediation efforts).

These are only some of the numerous factors that may affect the forward-looking statements contained in this document. The Company undertakes no obligation to revise or update forward-looking statements as a result of new information since these statements may no longer be accurate or timely.
