APPLICABLE DOCUMENTS
This document shall be applied together with the main document (QRS-01 Quality Requirements for Suppliers) and with the other applicable modules.
CONTENTS
1. Purpose ..................................................................................................................... 4
2. Applicability ............................................................................................................... 4
3. Effective date ............................................................................................................. 4
4. Acronyms, abbreviations and definitions .................................................................... 4
   4.1 Acronyms and abbreviations ............................................................................... 4
   4.2 Definitions ........................................................................................................... 4
5. Requirements ............................................................................................................ 5
1. Purpose

The purpose of this document is to collect the PZL Customer requirements and flown-down to the Suppliers involved with PZL Customer Articles, in addition to those provided by QRS-01 main document and related modules.

2. Applicability

The applicability is limited to the PZL plant.

This document is applicable to all PZL Suppliers who perform activities related to PZL Customer Articles, and who receive Purchase Orders where QRS-01 is invoked. Besides, it shall be flowed-down to all Sub-Tier Suppliers involved in fulfilment of the Purchase Orders.

Remark: A Customer requirement shall always prevail against QRS-01 requirements in case of conflict.

3. Effective date

Issue date

4. Acronyms, abbreviations and definitions

4.1 Acronyms and abbreviations

IAQG: International Aerospace Quality Group  
LH: Leonardo Helicopters  
PZL: Wytwórnia Sprzętu Komunikacyjnego „PZL-Świdnik” S.A.  
QRS: Quality Requirements for Suppliers  
SQA: Supplier Quality Assurance

4.2 Definitions

For Supplier Categories, please refer to ‘Definitions’ in the QRS-01 main document.

For general definitions, please refer to EN ISO 9000, AS/EN 9100 series, as well as to IAQG Dictionary. Additional definitions applicable to this document are included as follows.

**Article(s):** raw material, process, tool, gauge, equipment, detail part, sub-assembly, assembly, avionics equipment, software, CAD/CAM/CATIA media (including Digital Data Definition), documentation, aircraft, airborne/non-airborne equipment and service that may be provided.
Additional Customer requirements for PZL Suppliers

Catalogue Part/Article: proprietary part specified in the Manufacturer’s own publication which contains sufficient technical data for the user to select and confirm that the Part/Article satisfies the design intent and end user application.

Purchase Order: PZL document accepted by the Supplier, independently of the format (paper or electronic), for the provision of Articles.

5. Requirements

The supplier shall, where applicable, comply with the applicable Documents detailed in the table below, at the last applicable revision. In the table below, Customer articles to which the additional requirements apply are also specified.

<table>
