YOUR PARTNER OF CHOICE

OUR PURPOSE
Contribute to the world’s progress and safety by delivering meaningful and innovative technological solutions.

OUR MISSION
To be the international Aerospace, Defence and Security company that best enables its customers’ success, by thinking creatively and working with passion.

PROFILE
We are one of the world’s major players in Aerospace, Defence and Security, a global solutions provider and a trusted long-term partner of choice for governments, institutions and business customers. We deliver cutting-edge and dual-use technologies, meeting both military and civil requirements. In partnership with our customers, we work to strengthen global security, protect people, territories, infrastructure and cyber networks. We guarantee the safe management of air, sea and urban spaces, as well as large-scale events. We have a solid industrial legacy, strengthened by the expertise of our people and the continuous pursuit of innovation in our core technologies. Underpinned by a sustainable business model, we are pursuing a path of long-term growth that will create value for all our stakeholders.

GLOBAL PRESENCE
Headquartered in Italy, we operate globally, through a deep-rooted industrial presence in four domestic markets (Italy, United Kingdom, United States and Poland), backed by an international commercial network in about 40 countries worldwide. A number of subsidiaries, strategic partnerships, and joint ventures support our global presence.

Products, solutions and services made by Leonardo are in use in more than 150 countries worldwide.

SHAREHOLDERS
base at February 2020

TOTAL SHAREHOLDER COMPOSITION

- Institutional investors: 50.8%
- Italian Ministry of Economy and Finance: 30.2%
- Retail investors (Italy only): 17.2%
- Treasury shares: 0.6%
- Unidentified: 1.2%
- Other: 0.6%

Leonardo is listed on the Milan Stock Exchange. It has an international shareholding structure and over 90% of the institutional float is held by international funds. Approximately 41% of Leonardo’s capital is held by investors who are signatories of the PRI (Principles for Responsible Investment).

2019 KEY FIGURES

- New orders: 14,105
- Order backlog: 36,513
- Revenues: 13,784

- R&D: 1,525
- Workforce (no.): 49,530
- Export: 84% of revenues come from international markets
Air
From advanced electronic components to fixed, rotary-wing and tilt rotor platforms, to fully integrated training and simulation systems: Leonardo offers global competence in the management of the entire cycle of development of electronic systems and manned and unmanned aircraft and helicopters, for a variety of missions and applications.

Sea
From maritime and coastal surveillance to the supply and integration of all ship systems: Leonardo offers cutting edge functionalities and all the skills necessary to give naval forces timely and accurate information and the ability to manage and control integrated situational awareness, communications and weapon systems.

Land
From land-based net-centric management systems to air defence and air traffic control: Leonardo leads the market of complex command and control solutions, air and land defence, intelligence, surveillance, target acquisition and reconnaissance. These solutions are integrated, interoperable and adaptable in various operating scenarios.

Space
From design to development of integrated satellite systems, management of satellite communication networks and development of geo-information and Earth observation applications: Leonardo provides a full offer, which includes sensors, payloads, advanced robotics systems, solutions and services.

Cyber & Security
From integrated systems for the security of major events to the protection of critical infrastructure. Leonardo exploits the synergies between IT, communications, physical and digital security to offer integrated systems to secure and control the territory.

Unmanned Systems
From fixed and rotary wing UAS to target drones and counter drone solutions. Our offer is complemented by air service operations, advanced Unmanned Traffic Management systems, as well as mission management systems, sensors and technology demonstrators. We are the only European company to deliver full end-to-end solutions.

How we work

Divisions
- Helicopters
- Electronics
- Cyber Security
- Aircraft
- Aerostructures

Main Subsidiaries and Joint Ventures
- Leonardo DRS (Leonardo 100%)
- Telespazio (Leonardo 67% - Thales 33%)
- Thales Alenia Space (Thales 67% - Leonardo 33%)
- ATR (Leonardo 50% - Airbus 50%)
- MBDA (BAE Systems 37.5% - Airbus 37.5% - Leonardo 25%)
- Leonardo DRS (Leonardo 100%)
- Telespazio (Leonardo 67% - Thales 33%)
- Thales Alenia Space (Thales 67% - Leonardo 33%)
- ATR (Leonardo 50% - Airbus 50%)
- MBDA (BAE Systems 37.5% - Airbus 37.5% - Leonardo 25%)

Customer-focused
Leveraging technological and digital excellence, we deliver an innovative and cost-effective full spectrum of support, services, training and through-life solutions for our customers worldwide. For a top performance over time.

Innovation
With about € 1.5 billion (13% of revenues in 2019) dedicated to R&D, Leonardo is ranked 2nd in Europe and 4th worldwide in terms of R&D investments in the Aerospace and Defence sector.

- Through-life support: MRO&U and engineering services
- Turn-key and performance-based services
- Advanced support services based on digital enablers
- Flight training services and multi-domain training solutions

Sustainability
Sustainability is fully integrated in our Strategic Plan. It is based on sound governance and is expressed in specific objectives, aiming to create positive impacts on the territories where we operate.

- Qualified employment and growth of SMEs
- Physical and cyber security for people, territories, urban communities and critical infrastructures
- Competitiveness and economic, technological and social development
- Diffusion of scientific citizenship and promotion of STEM skills
- Monitoring and prevention of climate change and emergencies management

Leonardo supports the Sustainable Development Goals

Leonardo Labs
To accelerate the innovation process we are creating a network of Corporate Laboratories to explore and develop innovative enabling technologies, transversal to our business sectors.
