Higher than 2016 (excluding Kuwait) still in a context of challenging markets

Stabilising and consolidating the current focus on the core business

Further improvement also in profitability

2016-2017 cumulative net effect of the EFA Kuwait advance payment confirmed at ca. € 600 mln

Including the acquisition of Daylight Solutions and the payment of dividend for € 0.14 p.s.

(*) Assuming €/$ exchange rate at 1.15 and €/£ at 0.85
Medium-Term Targets
Development & Growth

- Book to bill at ca. 1x
- 2017-2021 Revenues CAGR of 3%-5% driven by
  - new orders, despite challenging markets
  - strong backlog (i.e. large orders in Aeronautics and Electronics expected to contribute by 2018)
- Continuous improvement in profitability, with RoS at 11% by the mid-point of the Plan driven by
  - higher volumes
  - continued focus on efficiency
- Solid and flexible financial structure due to improved cash generation and material reduction in debt
- We remain committed to a disciplined financial strategy
  - aiming at going back to an “investment grade” credit rating
  - pursuing a better balance between reducing leverage, sustaining organic and external investment and shareholders return

Eurofighter Kuwait contract

Contract signed on April 5th 2016 for 28 Eurofighter in the most advanced configuration, including new E-Scan radar

Leonardo as prime contractor will lead all activities on behalf of the Consortium. Our share is ca. 60% of total value (€ 7,95mln), remaining 40% is pass-through

8-year contract (2016-2023). Production, delivery and acceptance will be in Italy (Aircraft Division). Deliveries will start in 2019

The impact of the contract on the Group:

**ORDERS**: entire amount (€ 7,95mln) booked 2Q2016 in Aircraft Division

**REVENUES**: meaningless contribution in 2016, ramping up in 2017-2018, peak of ca. €2bln p.y. in 2020-2021

**EBITA**: not expected to be dilutive on margins in 2017-2018, only marginally from 2019 onwards as Revenues peak up

**FOCF**: downpayment received in July 2016 and January 2017 to have an overall cumulative net effect on 2016-2017 FOCF of € 600mln. As typical for this kind of contracts, cash absorption is expected as the deliveries start, due to the build up of the Working Capital
Net Invested Capital streamlining

Target exceeded on investments and on track to deliver Working Capital reduction

Working Capital net of Customer Advances

- Customer Advances expected to decrease YoY (approx -6% per year), excluding EFA Kuwait
- Net of Customer advances impact, initiatives put in place lead to an operating working capital reduction
- Reducing trend also in 2016.
- More to be done but on track to reach 2017 target, before taking into account the impact of EFA Kuwait ramp-up

Material rationalisation of Investments (CAPEX + R&D)

- >20% reduction target and already 1x self-financing index target achieved in 2015.
- 2016 temporary reduction in the level of investments
- From 2017 onwards investments expected to remain broadly flat at ca. €550-600mln
- Investments aimed at sustaining the business in the future confirmed, key programmes not delayed
SAFE HARBOR STATEMENT

NOTE: Some of the statements included in this document are not historical facts but rather statements of future expectations, also related to future economic and financial performance, to be considered forward-looking statements. These forward-looking statements are based on Company's views and assumptions as of the date of the statements and involve known and unknown risks and uncertainties that could cause actual results, performance or events to differ materially from those expressed or implied in such statements. Given these uncertainties, you should not rely on forward-looking statements.

The following factors could affect our forward-looking statements: the ability to obtain or the timing of obtaining future government awards; the availability of government funding and customer requirements both domestically and internationally; changes in government or customer priorities due to programme reviews or revisions to strategic objectives (including changes in priorities to respond to terrorist threats or to improve homeland security); difficulties in developing and producing operationally advanced technology systems; the competitive environment; economic business and political conditions domestically and internationally; programme performance and the timing of contract payments; the timing and customer acceptance of product deliveries and launches; our ability to achieve or realise savings for our customers or ourselves through our global cost-cutting programme and other financial management programmes; and the outcome of contingencies (including completion of any acquisitions and divestitures, litigation and environmental remediation efforts).

These are only some of the numerous factors that may affect the forward-looking statements contained in this document.

The Company undertakes no obligation to revise or update forward-looking statements as a result of new information since these statements may no longer be accurate or timely.
We do business in a sustainable manner, with a continued commitment to economic and social development and the protection of public health and the environment.
